Judge Collier granted a preliminary injunction restraining the defendants from marching or encamping in proximity to the mines and houses of the miners for the purpose, by intimidation and opprobrious words, of preventing the miners of the plaintiff from working. ## LABOR DAY.

Gov. Leedy, of Kansas, Pays a Tribute to the Tilling Masses.

### OFFICE SEEKERS ORGANIZE.

"The National Republican Anti-Civil Service League" Started at Washington—Senator Gray Favors an Arbitration Treaty with England.

TOPEKA, Kan., Aug. 15.—Gov. Leedy to-day issued the following Labor day proclamation:

Whereas, The legislature of the state of Kansas, wisely indicating a proper respect for the dignity of labor, has by law declared that the first Monday in September of each year shall be known as Labor day and shall be a legal holiday;

Therefore, I, John W. Leedy, governor of the state of Kansas, realizing that in this state especially it is fit and proper that our people should constantly bear in mind the absolute necessity for the highest appreciation of those who toil with their hands, because upon the character, the aspirations and the success of such our commonwealth is reared and depends for its own achievements, obedient to the enactment of the legislature, do hereby recommend that on Monday, September 6, 1897, all business be suspended, and that our people assemble and unite to celebrate with appropriate exercises this day especially set apart in honor of the wage-workers of our state.

Office Seekers Organize.

WASHINGTON, Aug. 15.—The disappointed office seekers of Washington have decided to organize and 150 of them met at one of the hotels and bestowed upon their new association the title, "The National Republican Anti-Civil Service League." Thirty-one states are said to have been represented, and the addresses of the evening were evidently stirring, as they were heartily applauded. The league proposes to organize in every congressional district in the country, and submit to congress at the December session a petition, signed by every republican who can be reached, for the repeal of the civil service law. In this and like movements it is apparent that the scene of warfare has shifted from the administration to congress. Mr. Grosvenor's speech attacking civil service reform, which came out in Thursday's Congressional Record, asserts that the time has come for congress to take this matter up.

Senator Gray for Arbitration.

LONDON, Aug. 15.—The Daily News this morning published a long interview with United States Senator George Gray, of Delaware, who is now in London. Mr. Gray heartily approved any attempt to frame a new arbitration treaty acceptable to the senate. He demurred to the suggestion that Americans had a feeling of dislike for the English and asserted that America would be the first to come to the aid of England in any real trouble, such as hostile European coalition.

### ORGANIZATION TO BLAME.

Ex-Chief Justice Martin, of Kansas, Talks of the Present Miners' Troubles.

TOPEKA, Kan., Aug. 15.—Ex-Chief Justice David Martin, in an interview, discussing the coal miners' strike, said: The coal miners of the east are on a strike because they have been subjected to a heavy reduction of wages. In 1893 they received from 61 to 75 cents a ton for mining coal. Before the strike, the wages were reduced from 51 to 55 cents, or the equivalent. This is a very great reduction. Who gets the benefit of it? Not the consumer, assuredly. Our coal is no cheaper. Yet, I venture the assertion that not a single man in this country would object to paying ten cents more per ton for coal which he uses, were he convinced that the extra money went into the pockets of the miners. This money goes to the operators and the transportation companies. Of course, they are in a pool and one man cannot act unless all consent to do so. The miner also finds himself in a similar position. He belongs to an organization and its head officers order him to strike. He is compelled to do so, and must obey this order regardless of his own opinion. The operators are practically in the same position. No difference what may be the opinion of those that the miners are not being paid enough for the work which they are doing, they cannot make any concessions until all of their associates consent to do so.

### AGAINST FEDERAL COURTS.

Kansas Populists to Make War on United States District and Circuit Tribunals.

TOPEKA, Kan., Aug. 15.—If well-laid plans do not fail, the state will be almost flooded within the next two weeks with literature calculated to strengthen opposition to the federal courts. The populist executive committee has so decided, and already steps have been taken in that direction. The executive committee has prepared several articles on the subject which Grant Harrington, of Hiawatha, took home with him and will, it is understood, print on his own presses. Meanwhile the populist press of the state is to publish editorials and interviews with leading members of the party, declaring in favor of the abolishment of all federal courts below the supreme court.

### No Extra Session Likely.

TOPEKA, Kan., Aug. 15.—As a bit of aftermath of the populist state committee meeting it was talked Saturday that the visit of the populists who came to Topeka Thursday developed the fact that an extra session of the legislature would be dangerous. The chance that it would result in legislation reducing railroad rates was said to be small. One of the workers said the investigations of bribery charges had caused so much feeling that if the members of the legislature would meet there was danger that they could not agree on any measure.

### Missouri's Apple and Grape Crops.

KANSAS CITY, Mo., Aug. 15.—L. A. Goodman, secretary of the Missouri Agricultural society, reports a prospect for about 75 per cent. of a full crop of apples in Missouri. The southern part of the state has the best prospect—80 to 90 per cent. The south central portion has a prospect for 65 to 75 per cent.; the north central, 70 to 80 per cent.; the northern section, 75 to 85 per cent. The grape crop will be abundant.

### Gov. Leedy Refuses to Pardon Sells.

TOPEKA, Kan., Aug. 15.—Gov. Leedy officially announced Saturday that he had decided to refuse a pardon for Willie Sells, the Erie county boy now in state's prison for the murders of his father, mother and brother.

TOPEKA, Kan., Aug. 11.—Kansas has just an even 100 cities and towns containing 1,000 inhabitants or upward, an addition of four to the list during the past year. ### KANSAS CONVICTS' SENTENCES.

A Mistake in the Time Schedule Has Operated Against Them.

TOPEKA, Kan., Aug. 11.—By an error just discovered in the schedule of time to be deducted from the terms of convicts in the pen, it is estimated that the state of Kansas has secured from convicts within the past 28 years 78,000 days' work to which it was not legally entitled. This labor purchased at the ordinary rate would amount to more than \$1,000,000. The schedule was prepared in 1867, and has been in constant use without change since that time. It provided deductions for good behavior, which, upon careful examination by the attorney-general, are found to be entirely to the benefit of the state, and really compelled the convicts to serve extra time. A man serving one year by the table could not secure his liberty until three days after he was legally entitled to it. On a two years' sentence by the table the state has been gaining an advantage of 18 days; in three years' terms, the amount gained has been 42 days; ten years, 182 days; 15 years, 282 days; 20 years, 400 days. The error was discovered by N. M. Wells, of the state board of pardons, and a new table of deductions is being made.

### GOOD PLACE FOR GOLDBERG.

Rumor That McKinley Will Appoint Him Indian Agent at Muskogee.

WICHITA, Kan., Aug. 11.—It is stated that Ed Goldberg, of this city, will be appointed Indian agent of Muskogee to succeed D. M. Wisdom. The Muskogee agency embraces the five civilized tribes of Cherokees, Chickasaws, Choctaws, Creeks, and Seminoles, and is the largest and most important one in all the list of Indian agencies. The territory covered by the agency embraces 3,000 square miles, and the population numbers 70,000 souls, all civilized and mostly half-breeds, with a white population of many thousands. Mr. Goldberg formerly resided in Canton, O., and was a warm personal and political friend of Maj. McKinley.

### Hart May Lose His Job.

KANSAS CITY, Mo., Aug. 11.—A special to the Journal from Topeka says: Gov. Leedy is not altogether satisfied with the manner in which Superintendent Hart is running the state reform school, and there is likely to be removal. Aside from several scandals that have arisen out there, eight boys have escaped within the past two months, while only two escaped during the entire year prior to Hart's appointment.

### Will Try to Oust Lobdell.

TOPEKA, Kan., Aug. 11.—A bitter fight will arise at the beginning of the special session of the legislature in case Representative Charles Lobdell attempts to sit as a member. Mr. Lobdell represents Lane county, but the populists claim he has given up his residence there and moved to Wyandotte county. Lobdell still claims Lane county is his home, and in proof of this cites the fact that he has a government claim there.

### Women Cannot Sit as Jurors.

TOPEKA, Kan., Aug. 11.—Assistant Attorney-General Snelling gave it as his opinion that the three women who were drawn on the regular jury panel at Fort Scott yesterday could not sit as jurors even if they wanted to. He says that they cannot be considered as electors in the broad sense of the term, and that the courts would not sustain the verdicts rendered by women.

### Cleared the Price of the Farm.

LINCOLN CENTER, Kan., Aug. 11.—Last summer Peter Zeigler sold his 80-acre farm near Denmark to Peter Jensen, who sowed it to wheat. This week Mr. Jensen sold \$1,100 worth of wheat and still has 300 bushels left from the crop raised on the 80 acres. Jensen paid Zeigler \$600 for the 80 acres.

### Three Persons Killed by Lightning.

LANCASTER, Tex., Aug. 11.—Lightning struck and killed N. O. Lowry, his son and A. M. Wright here yesterday morning. They took refuge from the rain in Wright's barn.

## KANSAS IS GROWING.

Returns of the Township Assessors Show an Increase in Population.

TOPEKA, Kan., Aug. 10.—The population of Kansas, as returned by township assessors, through their county clerks, has been tabulated by the state board of agriculture, and the total is 1,396,789, or a net increase of 30,130. Sixty-seven counties have gained 41,792; the smallest gain is in Harper, and the largest, 4,268, in Crawford.
